Web Page:

My name is Mamo Cummings and I am the Republican candidate for the State House of Representatives, District 14, which includes areas from Wailua House Lots to Haena.

I am a third-generation Kaua`i resident and a graduate of Kapa`a High School. I attended Pacific University in Forest Grove, Oregon where, as a double-major, I studied Music Theory and Business Administration. After completing my studies, I lived in Oregon where I worked in banking, real estate and also owned my own insurance agency.

In 1995, I moved back to Kaua`i to be closer to my family. I worked in the County Office of Economic Development where I managed federal grants totaling \$5.5 million. My projects included the Restoration of the Historic Waimea Theatre, the West Kaua`i Visitor and Technology Center and the Kaua`i Resource Center.

In 1999, I became the president of the Kaua`i Chamber of Commerce. My organization and I work diligently to help our businesses, especially small companies with fewer than ten employees, by providing many networking opportunities; promoting their businesses on our website and business directory; and advocating business issues to our government officials.

My primary focus as a State House of Representatives candidate is to find effective and immediate solutions to Kapaa's exasperating traffic problem, Kauai's devastating "ice" problem, and helping residents qualify for better paying jobs. These are real and serious issues that our residents have faced for many years, and it's time to take real and serious action to fix them.
